About Us

Design

Design is probably the most important part of completing any kitchen concept. At Carysil Brassware Ltd we not only source great products but we work hard to create unique products with our partner and group factories to ensure you can have cutting edge designs with a splash of colour .

Stocking

Stock is an essential part of our offering and service. We endeavour to hold all items in stock at all times. We understand the short lead times and demands that our clients require so we make every effort to fulfil those requirements through generous stock holding by ourselves and the distributor. Many items are available for drop ship.

We are please to be supporting our nominated

A global charity working in 27 countries to provide clean water, decent toilets and good hygiene.

Our Guarantee

Our guarantee covers all of our products and covers any defects relating to manufacture. Warranty is product specific and ranges from 1-10 years

It is important that you **do not** clean products with solvent based cleaners as this could attack the fabric of the products. Our guarantee is non-transferable and does not cover damage incurred through misuse or erroneous installation .

Special finishes: Vanto Black, Copper, Brass and Nickel plating carry a 1 year warranty on the finish and cartridges, 5 years on the structure. A complete copy of our guarantee can be obtained on request. All images are the intellectual property right of the Tap Factory Ltd/Carysil Brassware Ltd and are copyright protected and must not be used without written permission .

Certification

“VIBRANCE COLLECTION THE TAP FACTORY (Figurative) “ are registered trade marks and remain the Intellectual Property of The Tap Factory Ltd UK00003712348. All images are copyright and are the IPO of The Tap Factory Limited and may not be used without written permission.

Disclaimer: Whilst every effort is made to ensure the information within this document is correct at time of printing, we are not responsible for product enhancement and variations over time. The document is a guide and colours and dimensions may vary.

Twist 4 in 1 Hot Tap

If you are looking for a black 4-way kitchen tap, then look no further! The K2H2O water filter combined with our matt black instant boiling water tap set delivers instant boiling water as well as filtered cold drinking water. Our Vanto 4 in 1 tap is more efficient than the 3 in 1 hot water taps available, you can choose when you engage your K2H2O carbon filter at the flick of a switch. The Tap Factory instant hot water tank heats your water to a maximum of 98°C and can be adjusted down to 75°C if you wish.

Specifications

Housing Construction : FDA Polypropylene with 10% talc

Filter Media: Carbon Wrap with Phosphate Bead

Capacity: 30,000 litres

Max-Min Bar Pressure: 1—8.5 Bar or 120 psi

Micron Rating: 5 Micron

Flow Rate: 5 Litres per minute

Chlorine Reduction: 80% reduction @ 2ppm over 30,000 litres

Scale Reduction: Using 3.5gm Phosphate Bead to NSF42 Std

Dimensions: 220 W x 220D x 600mm H

CARYSIL

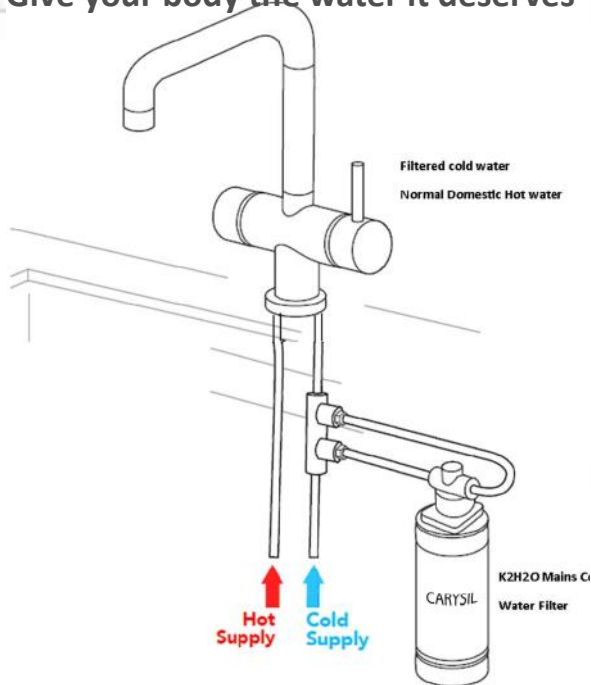

K2H2O WATER FILTER KIT

JOIN OUR WAR ON PLASTIC

There are over 13 billion plastic water bottles used in the UK every year. Over 50% never get recycled, they are just discarded and most end up in our oceans.

Installing The Tap Factory's K2H2O water filter will convert any cold tap simply and easily into clean, healthy, and delicious filtered drinking water on demand. By using a reusable, BPA free, drinking bottle you can help to save the environment and guard your family's health

“Give your body the water it deserves”

Removes chlorine

Reduces lime scale

Improves odour

Improves taste

Stops 10 micron bead

Removes organic matter

Removes heavy metals

Bottle Quality Water On Tap

CBK2FILKIT

Sits neatly inside any cupboard and attaches to the cold water feed. A simple 4 step installation process with fittings provided. Bathroom or kitchen YOU CHOOSE!

CBK2IONFILKIT

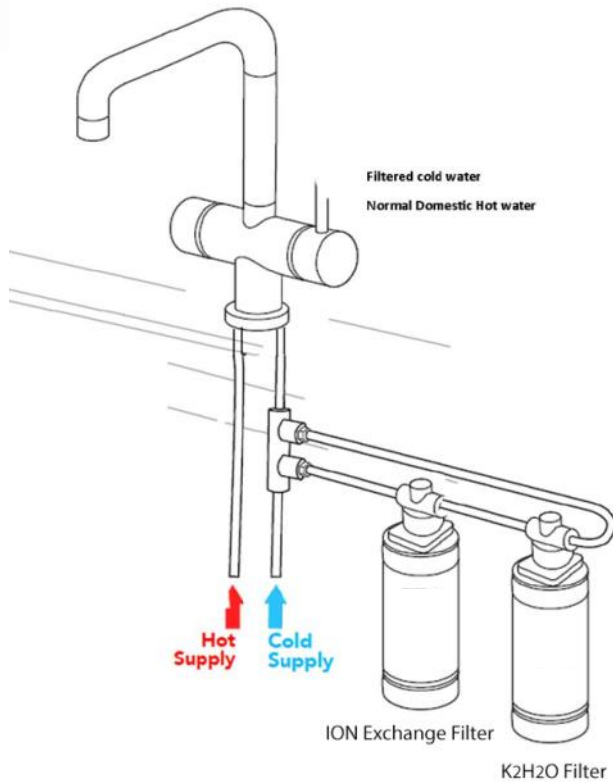

The ION Exchange resin filter it specifically deals with lime scale present in hard water areas. This filter is used in conjunction with the K2H2O water filter to deliver perfect drinking water.

Water Quality Map for The UK

Key

- Soft to moderately soft water area
- Medium to moderately hard water area
- Hard to very hard water area

Easy Twin Filter Installation CBK2H2O & ION Exchange System

CARYSIL

Lime Scale Blocking Ion Exchange Filter

Twin Filter System.

The twin filter system is design for homes that have hard water. The additional ION exchange resin filter counters lime scale. Hard water (lime Scale) are mineral deposits from water that are present in hard water areas. The Ion Exchange pre filter is designed to remove harmful lime scale, lead and copper traces from the domestic water system.

The ION resins are used to replace the magnesium and calcium ions found in hard water with low concentrate sodium ions. This process is known as water softening. Ion exchange filters do not remove Chlorine or other organic matter which is why it needs to be used in conjunction with the K2H2O water quality filter kit.

If you live in a soft water area then it will not be necessary to add the second ION exchange resin filter kit.

In hard water areas it is important to protect your tap cartridges and seals from lime scale attack. It is equally important that the boiling water tank is protected from lime scale build up as the sensitive thermistors inside the unit need to accurately relay temperature information so the unit works consistently well and delivers years of satisfactory

ION Exchange Pre Filter

Removes Lime Scale

Removes Lead

Removes Copper

Removes Magnesium

K2H2O Filter

Removes chlorine

Reduces lime scale

Improves odour

Improves taste

Stops 10 micron bead

Removes organic matter

Removes heavy metals

Removes 97 chemical elements from your water supply

"Give your body the water it deserves"

Page 68

Hard Water Limescale deposits

CBIONFILKIT

ION Exchange Filter Kit.

The filter is installed before the K2H2O Filter kit to deal with heavy lime scale in hard water areas.

CBK2FILKIT

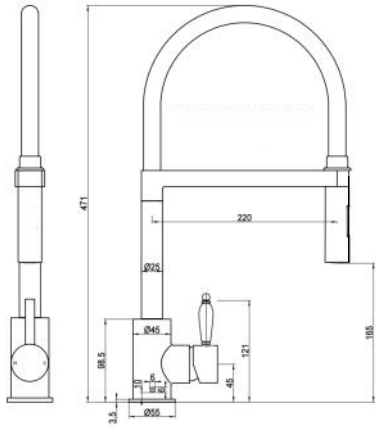

Improves the drinking water's taste and odour providing bottle quality water on demand from your kitchen tap.

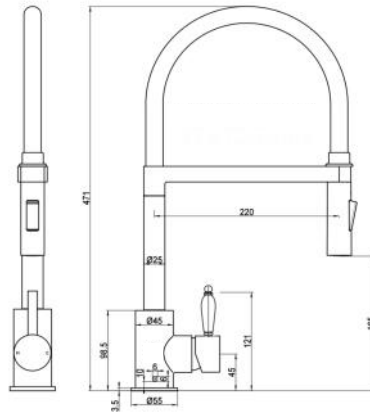

CBTWINFILKIT

CBIONFILKIT Limescale blocking filter and the K2H2O water quality filter combination. This twin filter system is designed for homes that are supplied with hard water.
