**CARYSIL**

## **The ingredients for a happy kitchen**

Carysil are all about sharing the important stuff. Simple. Helpful. Honest. And that's what our products are all about. Just beautiful quality and clever little touches that bring joy to the simple moments in the kitchen. Like mixers so magical they turn themselves on for you and sinks so striking they'll make you want to do the dishes. Carysil brings you products so unique, they have their own personalities.

# MEET THE FAMILY

That's right, we love our products so much, we actually named them like our own kids.

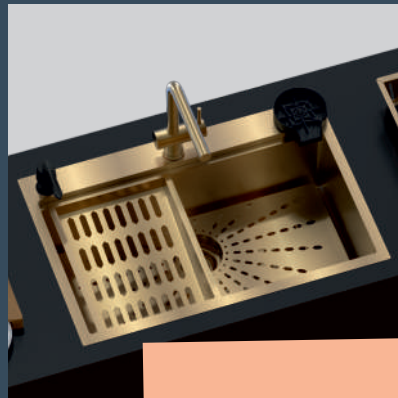

They're all unique in their own way.

So after months of designing and refining please meet Nova, FK Collection, New PVD Series, Slim Dam Series, Jumbo series and Family sink.

*HEY I'M*

**Nova**

**innovative faucet**

*HI I'M*

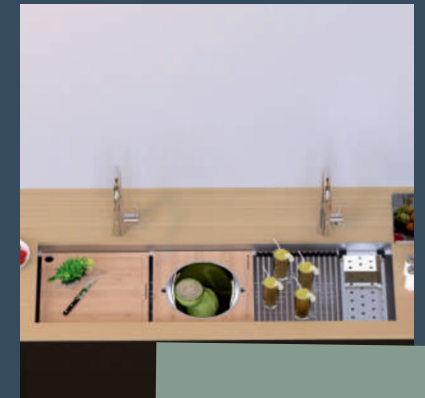

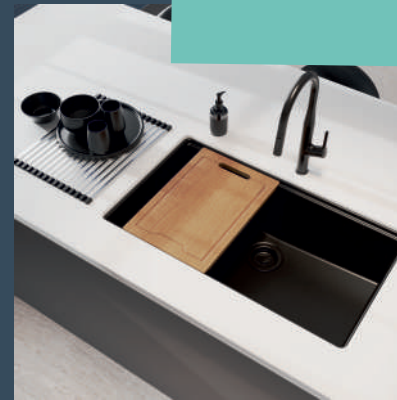

**FK Series**

I'm the golden child.  
Confident and  
good looking.

*HOW DO I'M*

**Jumbo Series**

Bigger on Convenience!  
Our new Jumbo Series

*HELLO I'M*

**Family Sink**

a statement of  
grandeur and practicality

## Nova Series

### JUST LIKE MAGIC

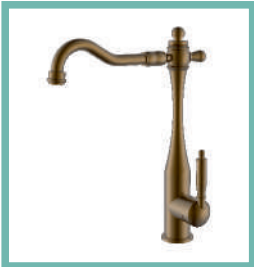

Introducing our innovative faucet Nova a seamless fusion of modern design and smart functionality. This sleek gooseneck design faucet, available in chrome and matte black finishes, features a built-in switch for effortless on/off control. With dual hot and cold functionality and a versatile pull-out spout, it adapts to your needs seamlessly. Nova is not just a faucet; it's a lifestyle upgrade.

*Give us  
a Aurelia*  
make Aurelia your new best  
friend in the kitchen.

# The right one for you

## *SINKS MADE SIMPLE*

### Step 3 : Are you a lefty or a righty?

Think about your sink layout in relation to other appliances in your kitchen as well as your washing and drying process. Wash on the left and dry on the right, or the other way around?

### Step 1 : How many bowls do you need?

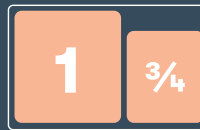

#### One Bowl

If space is at a premium or you'd just like to maximise your bench space, one bowl could be the ideal option.

#### Two Bowls

Suited to family homes with plenty of dishes and food prep, you can't beat a double sink.

#### One and Half Bowls

Big on practicality with similar functionality to a double bowl sink but with a smaller footprint.

### Step 4 : Under Mount or Top Mount?

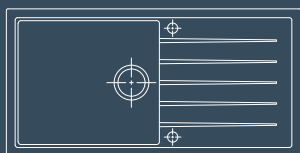

#### Under Mount

#### Top Mount

Most sinks are either designed to be undermount or topmount into the benchtop. Memo sinks, on the other hand, can be installed either way for added versatility. This makes choosing the right one a little easier.

### Step 2 : Need a drainer or taphole?

#### Drainer

A drainer is handy for stacking wet dishes to dry after washing.

#### Taphole

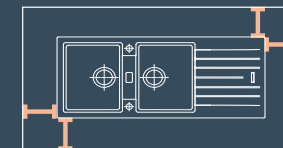

If you want your mixer mounted in your sink, you'll need a taphole built in. Alternatively, choose one without a taphole if you want to mount your mixer into your benchtop or on the wall.

### Step 5 : What is the best fit?

#### Dimensions

You want a sink, that is not only proportional to your kitchen but also caters to all the items you need to wash, such as oven trays and large pots and pans.

#### Cabinet Size

It might go without saying but make sure the width of your sink bowls are within the internal dimensions of your cabinet underneath.

#### Think Deep

Deeper sinks allow you to wash larger dishes but will take up more internal cabinet space underneath. Decide which is more important to you.

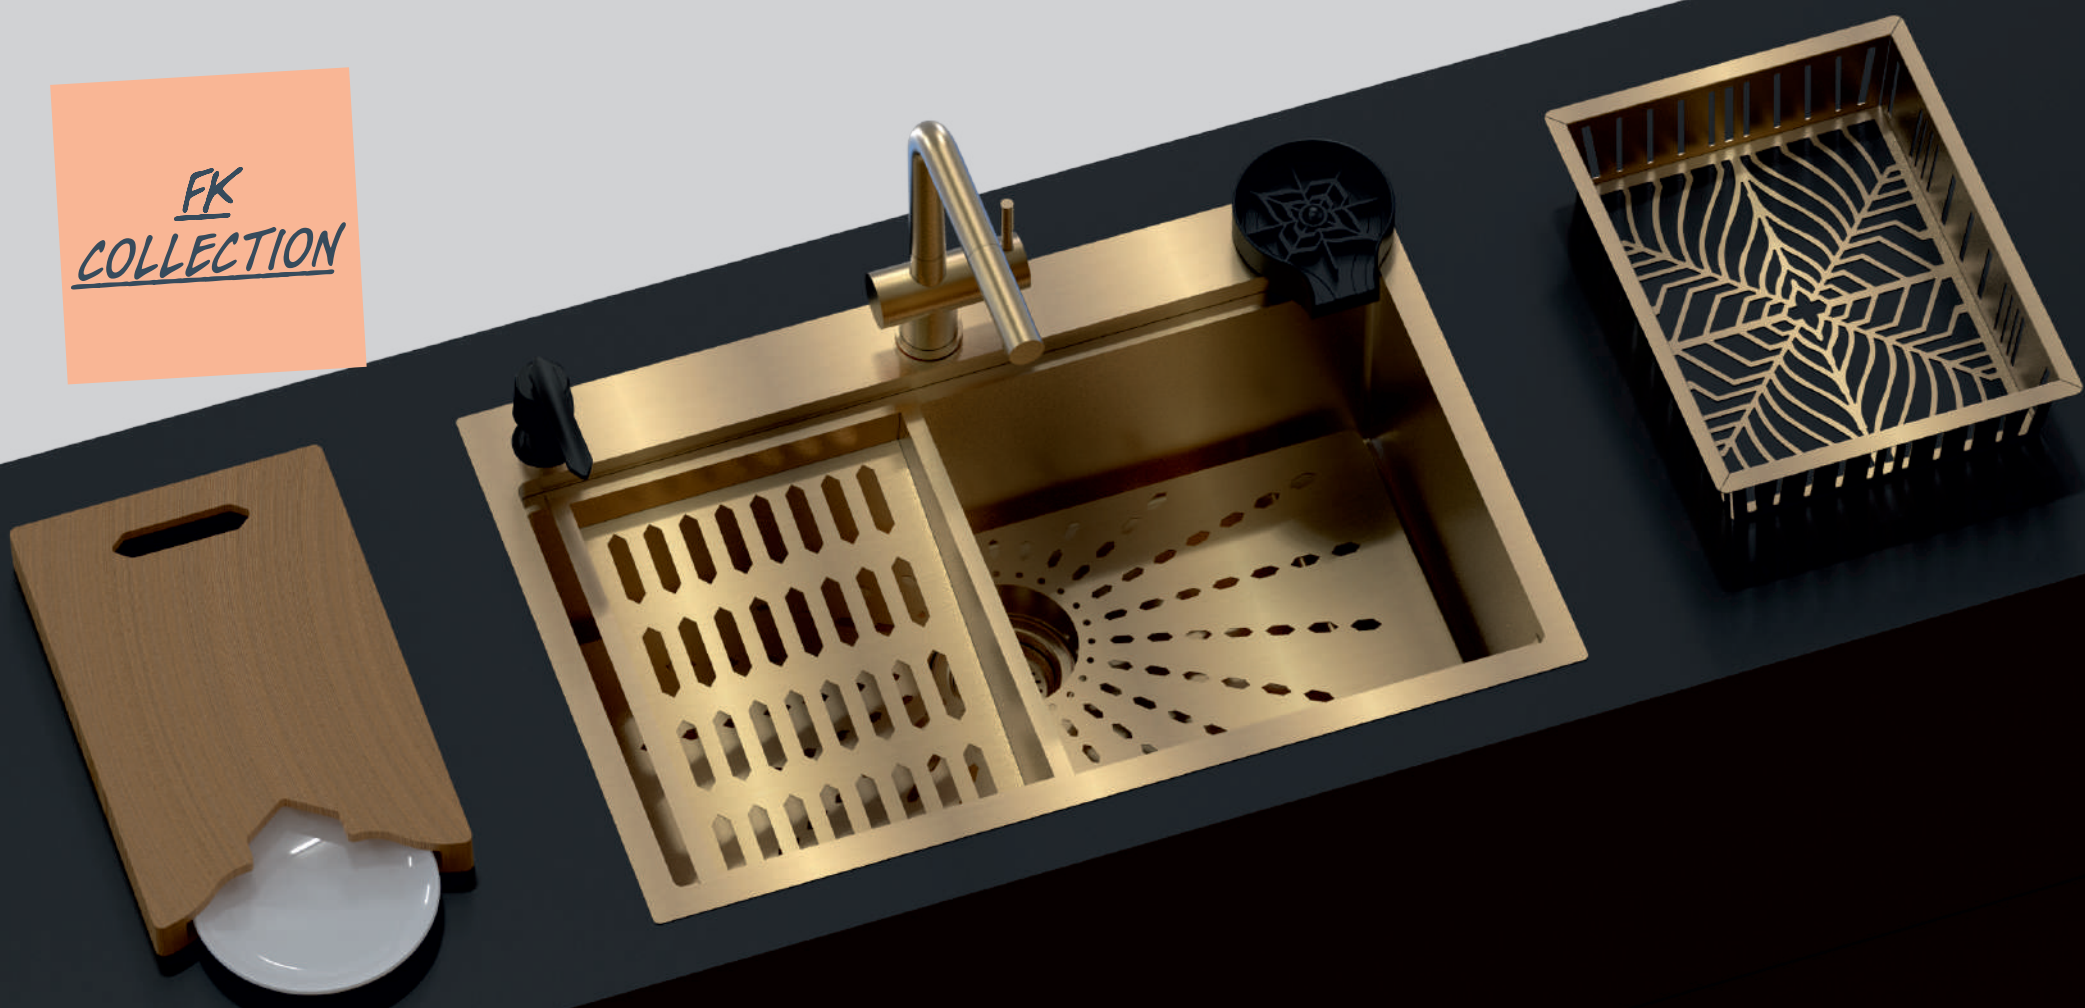

## FK COLLECTION

### THE ATTRACTION OF COLOUR

Nature lures animals with colour, which is why bees are drawn to beautiful flowers. We do the same with our incredible metallic colours. What better way to make a sink desirable than glimmering rose gold? And if gold ain't your thing, FK collection also comes in gunmetal, rose gold and yellow gold.

FAMILY SINK

## Family Sink

In the heart of every spacious kitchen, a magnificent centerpiece awaits. The Family Series Sink is not just a sink; it's a statement of grandeur and practicality. Designed with generous proportions to meet the needs of large families and culinary enthusiasts, this sink is more than just a kitchen fixture—it's a culinary companion. One of the standout features of this sink is its intelligently designed angled floor. The precisely crafted slope ensures efficient water drainage, preventing water from pooling and making cleanup a breeze. Equipped with 10 accessories, this over-sized sink transforms your kitchen into a versatile culinary hub.
